

2019 Stack overflow developer survey

Guillermo Fantoni

07/23/2021

OUTLINE

- ▶ Executive Summary
- ▶ Introduction
- ▶ Methodology
- ▶ Results
 - ▶ Visualization - Charts
 - ▶ Dashboard
- ▶ Discussion
 - ▶ Findings & Implications
- ▶ Conclusion
- ▶ Appendix

EXECUTIVE SUMMARY

- ▶ Programming languages trends(WEB->Js,HTML/CSS; DB->SQL; Analytics->Python)
- ▶ Databases trend(MySQL, MongoDB)
- ▶ Dashboard
 - ▶ Used technologies(Js, MySQL, Windows)
 - ▶ Technologies wanted to learn(Js, Docker, PostgreSQL)
 - ▶ Demographic data (Gender inequality, Young people)
- ▶ Overall findings
- ▶ Most demanded jobs(C,Java,Js,Python)
- ▶ Popular languages(Swift,Python,C++,Js)

INTRODUCTION

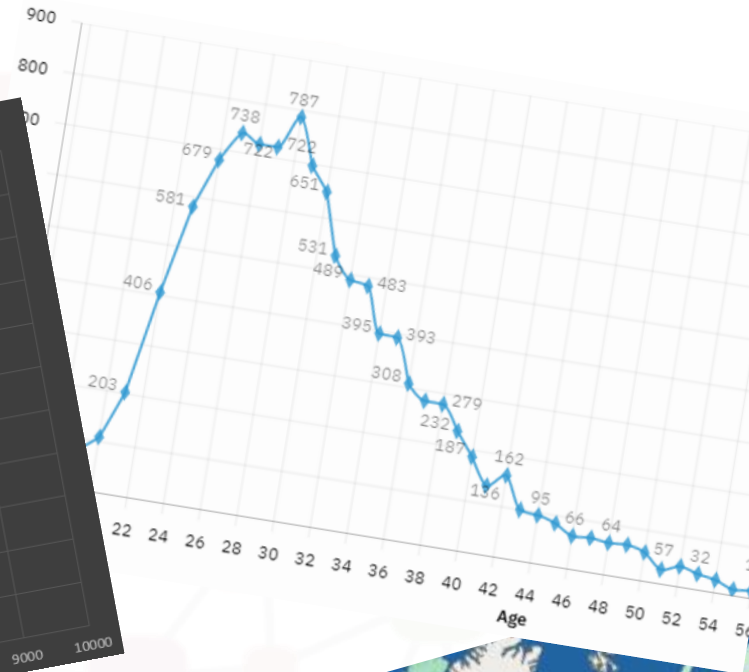

- Stack Overflow's annual Developer survey is the largest survey of developers, and bring
- Nearly 90,000 developers participate in the survey
- This survey analyze the most common technologies
- Also demographic data is included
 - Countries of origin and education level
 - Gender and age of participants

METHODOLOGY

- ▶ Nearly 25000 participants data is analyzed
- ▶ The dataset is wrangling and prepare in a Jupyter notebook.
- ▶ The data visualization are developed with:
 - ▶ Cognos
 - ▶ Microsoft excel

RESULTS

PROGRAMMING LANGUAGE TRENDS

Top 5 languages

TOP 5 languages wanted to learn next year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- ▶ On average the participants use 5 languages
- ▶ Javascript and HTML/CSS are the most demanded languages.
- ▶ SQL are in the top 5 in both cases
- ▶ New languages are appearing and introducing very powerful functionalities with few lines of code

Implications

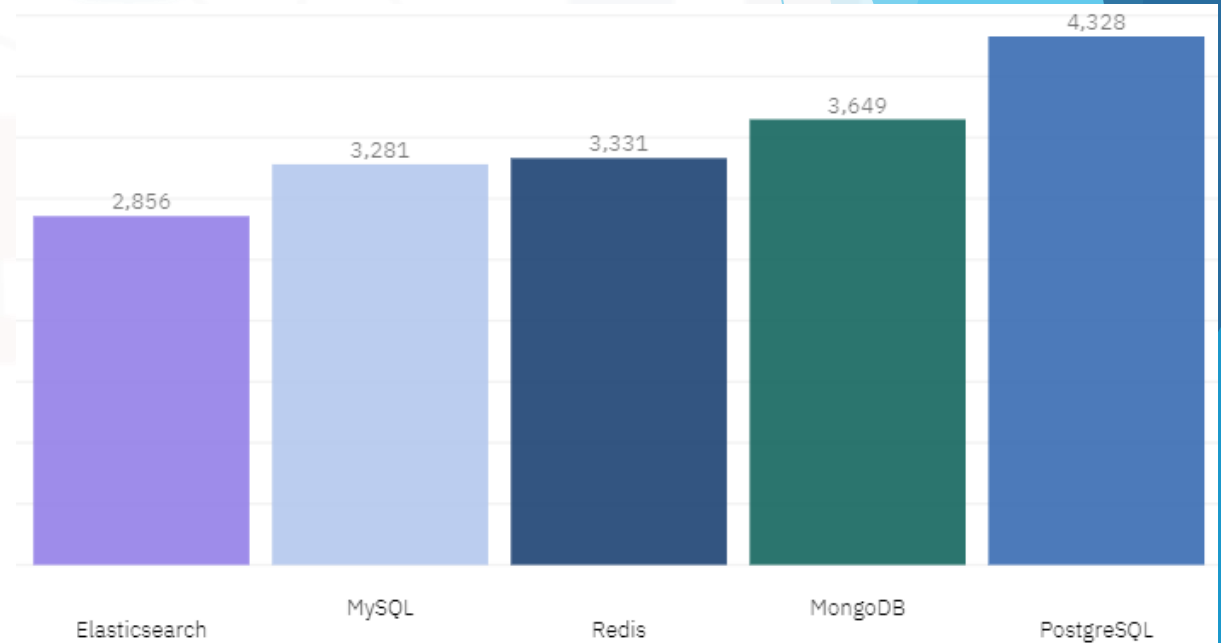

- ▶ programmers acquire great multidisciplinary
- ▶ WEB programming are the principal development activity.
- ▶ Relational databases are essential
- ▶ The world is increasingly specialized and gets better tools for each situation.

DATABASE TRENDS

TOP 5 databases

TOP 5 databases wanted to learn next year

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- ▶ MySQL are the commonly database
- ▶ MongoDB is the fifth common database, but the second for learn next year.
- ▶ A large number of databases are used

Implications

- ▶ MySQL is the most used database, it can be integrated with a multitude of platforms and languages.
- ▶ The NoSQL databases are growing.
- ▶ Databases are more flexible than ever. Each of one have a peculiarity and it enables a better management of data.

DASHBOARD

▶ [Link to Cognos Dashboard](#)

Commonly platforms wordcloud

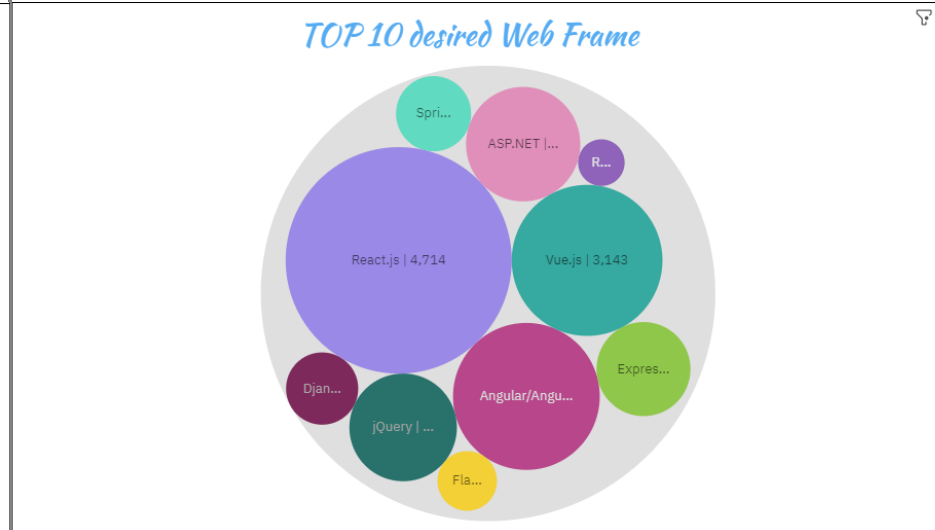

DASHBOARD TAB 1

Most common used technologies

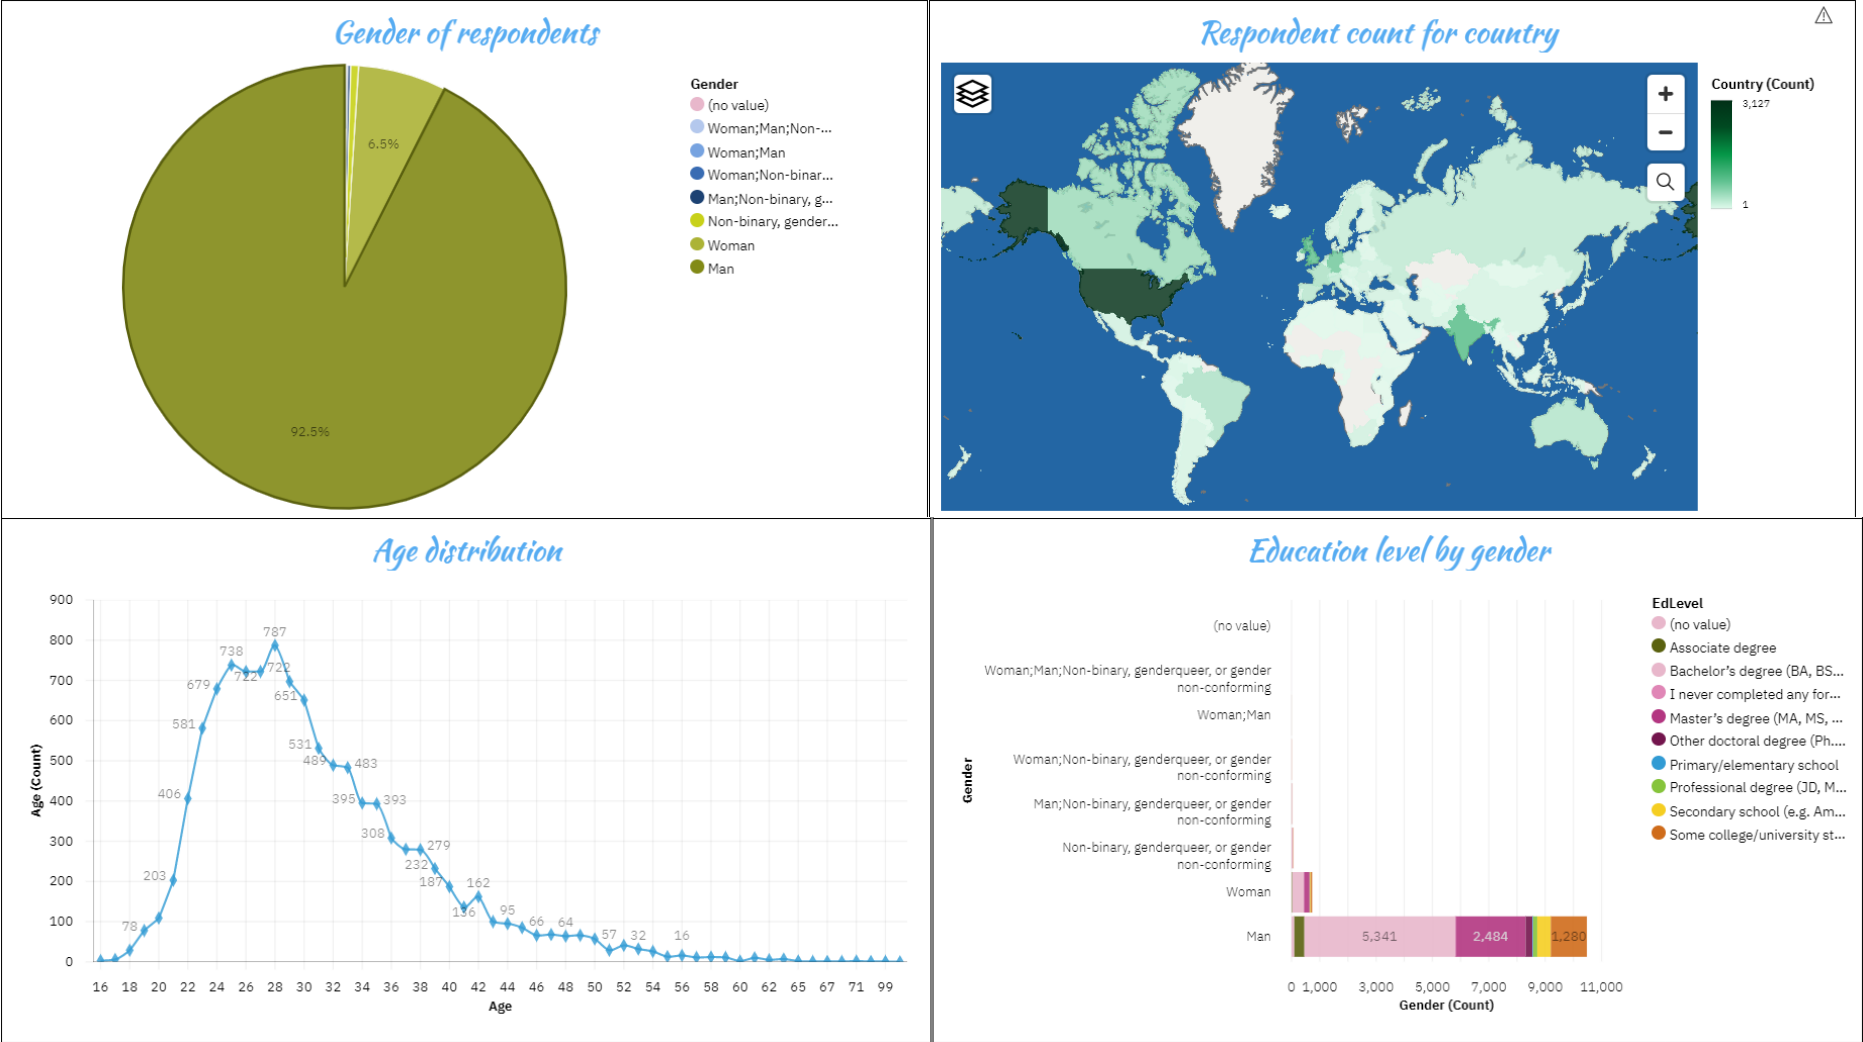

DASHBOARD TAB 2

Technologies wanted to learn

DASHBOARD TAB 3

Demographic data

DISCUSSION

The world is becoming more complex and automated, technological jobs will grow and only countries that adapt will continue to develop.

Sadly only the **6,5%** of the respondent are women. this would suppose an economic inequality given that the jobs of the future are technological.

OVERALL FINDINGS & IMPLICATIONS

Findings

- ▶ Tech jobs are mostly done by men
- ▶ Tech roles are adopted by young people.
- ▶ EEUU, India, UK and Germany are the main countries with tech jobs.

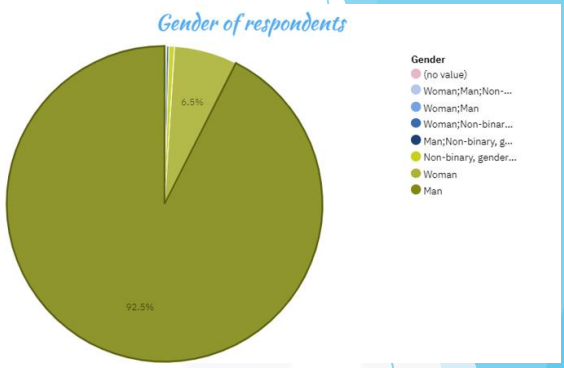

Implications

- ▶ In the world are a big segregation by gender, this would suppose an economic inequality
- ▶ Most new jobs need at least one technologic tool. The jobs of the future will be technological
- ▶ The number of Jobs are correlated with the technological development. This countries have a highest technological level.

CONCLUSION

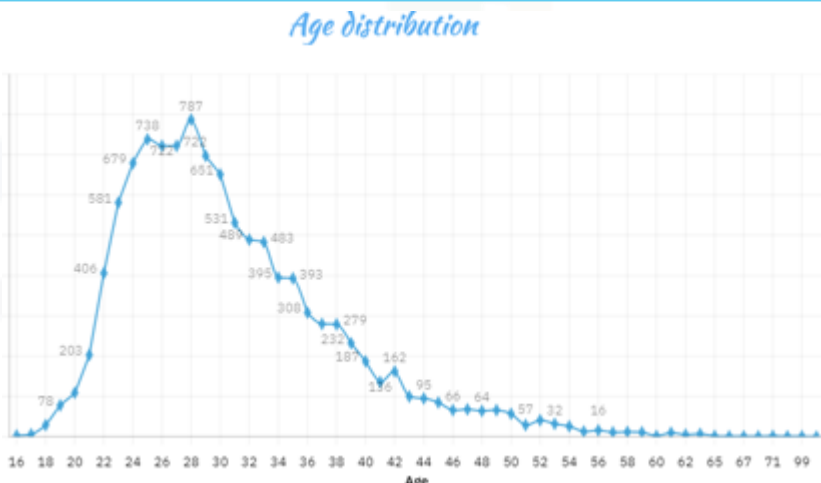

In the world are a big segregation by gender, this would suppose an economic inequality

WEB programming are the principal develop activity

EEUU, India, UK and Germany are countries with highest technological level

A large group of developers are Young.

APPENDIX

Mean	5,250900149
Standard Error	0,022257997
Median	5
Mode	5
Standard Deviatc	2,375148322
Sample Variance	5,641329552
Kurtosis	1,417515055
Skewness	0,859922554
Range	18
Minimum	1
Maximum	19
Sum	59792
Count	11387
Confidence Level	0,04362951

The number of languages by developer shaped normal distribution with the center in 5.

The 64% of developers know between 2 and 6 languages.

GITHUB JOB POSTINGS

Although C isn't a language in fashion, it is still powerful and is the main language in job offer. Python and Java are the most offer Jobs after C.

POPULAR LANGUAGES

Swift is the highest paid language because it is used on apple platforms.

Python is the second highest paid language, because it is the buzzword among data scientists and analysts
